ACTIVE DIRECTORY MANAGEMENT WITH ALL NEW CSE USER MANAGER

CSE launches it's revolutionary Active Directory management tool, User Manager 2010. It is the most advanced and comprehensive Active Directory management system available.

It makes management of AD objects faster, more efficient and less error prone. It automates many day to day tasks, makes complex tasks simple and allows you to extend control into new areas.

User Manager will transform management of your Active Directory objects.

SAMWORTH CHURCH ACADEMY

CSE have been appointed as preferred ICT supplier for Samworth Church Academy in Mansfield

26/10/09

MELKSHAM OAK COMMUNITY SCHOOL

CSE have been appointed as preferred ICT supplier for Melksham Oak Community School in Wiltshire. As a "One School Pathfinder" project CSE won the contract against intense competition

20/06/09

CSE APPOINTED ICT PARTNER AT WREN ACADEMY

CSE have been appointed as ICT supplier for the 2nd phase of deployment at Wren Academy in London. After a challenging period during the first year of operation the Academy decided to go to open tender for the next phase and CSE was successful, offering stability

for the new academic year and an exciting proof of concept using VDI to be rolled out in a controlled manner over the coming months.

STEINER ACADEMY HEREFORD

CSE have been appointed ICT partner to the Steiner Academy Hereford.

This is the first publicly funded Steiner school in the UK and the first Academy to offer Steiner education.

The Academy provides a co-educational school for children from early childhood right through to school leaving age (3 to 16). The Steiner Waldorf approach is based on the simple but profound insight that children learn in different ways at different stages of their development.

CSE have already installed a new administration network and ICT suite and will continue to work with the Academy as the new building programme

CSE APPOINTED HP GOLD PARTNER FOR 2009

HP work very closely with a select number of preferred partners across a wide range of business sectors, including Education.

CSE has been awarded HP Gold preferred partner status for 2009, this provides us with resources to market and sell HP products, not only will this benefit CSE, but it will also benefit our customers, with high quality products, additional resources and better pricing structures.

By working closely with HP CSE is again ensuring our commitment to our customers by continuing to develop our product portfolio, so that we can provide the best possible products and services at the best possible price

NEW CSE NETWORK TOOLKIT UPDATE

We are pleased to announce a new release of the Network Toolkit and Workspace Explorer.Net client. This is normally customer installable and is available from the CSE Elements site for authorised users. This release adds some new features and also addresses a number of

reported bugs some highlights below for the full release notes please see the CSE Elements site. If you wish to discuss the installation procedure or any aspect of this release please call CSE Technical Support

CSE Network Toolkit Manager

- License Tracking has been changed to use the stations MAC Address.
- Station Administration now allows you to check the CSE Workspace Explorer Client version installed. This allows you to quickly identify stations that are running incorrect client versions.
- Station Admin now includes a "push" installation facility to update station client software.
- Station Admin allows direct access to station data, including the ability to view running processes and services and to see what software is installed and version numbers. You can also examine the stations event logs.
- New display themes have been added.

CSE Workspace Explorer Client

The Workspace Explorer Client has been updated to facilitate the new features found in Network Toolkit Manager and Room and Asset Booking.

Room and Asset Booking Module

- Room and Asset Booking now includes the ability to read station serial numbers from the stations directly (if this is supported by the stations BIOS) and input the serial numbers from bar code scanner.

DIGITAL SIGNAGE

CSE has released a sophisticated digital signage system for schools and colleges. Presentation Manager allows multiple display screens to be managed across the network. Ideal for reception, restaurant, sports hall or anywhere you need to communicate clearly and colourfully.

Presentation Manager support multiple media types, playlists, scheduled displays and multi-pane displays.

06/02/08
GATEWAY ACADEMY

CSE has been appointed the preferred ICT partner for the Gateway Academy in Tilbury.

After a strict tender evaluation process CSE was chosen over rivals from the BECTA Infrastructure Services Supplier list.

CSE will supply a sophisticated, cutting edge network to meet the ambitious goals of the Academy senior leadership team. From HP servers and infrastructure to fully implemented Virtual Learning Environment the £1M+ project will deliver one of the most advanced ICT systems in UK education.
